Why We Translate “Ger” As “Immigrant”

The Talmud reminds us that the Torah “warns against the wronging of a ger in 36 places; others say, in 46 places” (Bava Metzia 59b’). Ger can be understood in a range of ways; Bible scholar Christiana Van Houten² suggests that “immigrant” is the most accurate translation. Here’s some of her reasoning:

1. Van Houten cites Bible scholar Frank Spina, who identifies three word-roots related to ger in biblical Hebrew: **to sojourn, to stir up strife, and to be afraid**. Spina suggests “immigrant” best captures this full range of meaning—of someone who both arrives in a country afraid and who may make those who already live there fearful. (Van Houten, page 19)

2. Citizenship and nativeness are culturally-defined terms whose definitions can shift. Bible scholars disagree about who the ezrach (“native-born” in biblical Hebrew, as in Leviticus 24:22, “You shall have one law for the ger and the ezrach…” ) was. Van Houten joins the group who believe, somewhat ironically, that ezrachim were the Judeans who returned from Babylonian exile to Israel—a term they used to distinguish themselves from those who remained in the land! (152) The fluidity of this term reminds us that we, too, can transform our ideas about who counts as “one of us.”

“Prayer for Immigrant Children and Families [excerpts]”

We are here to say yes... to the vital moral fabric of our lives.
To those who would tear that fabric apart, We are here to say—we will always show up to stitch it back together. We walk in the footsteps of our ancestor Abraham Who “stitched worlds together” Who saw connection everywhere Who was commanded to be a blessing to all the families of the earth. We know that it is so much easier—and faster—to tear things apart Than it is to stitch them together. But we will keep showing up for as long as it takes.
Because we are parents ourselves Because we are teachers Because we are witnesses Because we are weavers Because we are threads in the tapestry of Your creation.

— RABBI SHARON COHEN ANISFELD, PRESIDENT, HEBREW COLLEGE, NEWTON, MASS., ON A DELEGATION TO THE TEXAS BORDER ORGANIZED BY THE AMERICAN FEDERATION OF TEACHERS, JUNE, 2018.

1 It likely comes as no accident that this statement immediately follows the famous story of the oven of akhenai and the ostracism of Rabbi Eliezer ben Hyrcanus, who himself becomes a sort of ger in his own community.

3. How the Torah views the ger evolved through three historical stages:

- In the earliest stage (the "Covenant Code" of Parshat Mishpatim), the focus was on offering hospitality to individual gerim who came to live among the Israelites. The Torah establishes some basic rights for gerim, but that framework of hospitality makes the ger a guest in someone else’s home.
- In the next stage (Deuteronomy), caring for the ger—along with the widow and orphan—becomes a societal priority. Van Houten writes, “Rather than preeminently requiring hospitality, these laws would seem to be creating a system of support which would allow those on the fringes to be economically self-sufficient.” (161)
- In the final stage (the Priestly texts, edited and compiled around the time of the Babylonian exile and return to Israel), “for the first time, the possibility will exist of an outsider achieving insider status” (118). These texts introduce circumcision as a route to joining the people and being able to offer the Passover sacrifice, a key ritual of belonging. (Exodus 12:48-49)

The Torah therefore offers three models of how we might respond to immigrants today:

- With hospitality, allowing select ones to live in “our” country;
- With a structured system for supporting their basic needs, just as we care for our own poor, while maintaining the distinction;
- With a full option for acquiring citizenship.

The first and the second model may protect non-natives from exploitation. The third model allows for full integration—and for the ger to become an ezraḥ.

---

3 This follows the widely accepted Documentary Hypothesis of how the Torah’s text came together over time.
4 This section includes four references to protecting the ger: Exodus 22:20, 23:9, 23:12, and 20:8-11.
